CrownConnect Web-Tracking

CrownConnect is an internet-based shipment tracking web-portal providing a higher level of service to your customers while increasing productivity.

- Your customers are able to track statuses/POD's in real-time as shipments are updated.
- Built in search engine allows your customers to easily find the information they are looking for.
- Company logo can be added to the site and hyper-linked to your own website.
- Optionally offer your customers the ability to view images, charges and notes.
- CrownConnect Mobile provides access to the shipment data from any internet browser-enabled phone.
