

Driver Phone Application (Android) for Real-time Status Updates & Signatures

Get Live Updates

Two-way data communication between dispatchers and drivers provides you with timely and accurate shipment Status/POD information, keeping your customers updated in real-time.

Make Signing Easy

Capture and send electronic hardcopy POD signatures in real-time using the following methods:

- **Signature Capture**
Capture the consignee's signature and transpose on Crown internal paperwork.
- **Photo Capture**
Capture photo of your customer's signed paperwork.
- **Electronic Document Signature (e-Doc)**
Upload electronic paperwork to be signed by consignee using stylus.

Add Details

Driver can mark shipments OS&D while capturing photos of damaged freight.

Share Quickly

Ability for onsite driver to email signed electronic paperwork to consignee as requested.

Compatible with Android devices.
